- 8:00 A.M. - SA Hardy relieved SA Carter at security post in the enclosed foyer.
- 8:30 A.M. - Janet Knadle, USFHS nurse, reported for duty.
- 9:40 A.M. - Mrs. Marina Oswald, with attorney Thorne, accompanied by Inspector Kelley, SA Jamison and SA Dickerson, departed for the President's Commission hearing at VFW Bldg.
- 12:45 P.M. - Mrs. Marina Oswald and party returned.
- 1:40 P.M. - Mrs. Marina Oswald and party departed for President's Commission hearing at VFW Bldg.
- 4:00 P.M. - SA Davis relieved SA Hardy at security post in the enclosed foyer.
- 5:00 P.M. - Mrs. Marina Oswald and party returned to hotel.
- 8:50 P.M. - Mrs. Marina Oswald and Mr. James Martin, accompanied by SA Jamison and SA Dickerson, departed for a walk up 14th St. and then visit to the Merry-Land Club, 1405 L Street, N.W.
- 10:30 P.M. - Mrs. Marina Oswald and party returned to hotel and Mrs. Knadle departed.
- 12:00 M.M. - No unusual activity or incident reported during this tour of duty on 2-5-64.

February 6, 1964 (Thursday)

- 12:01 A.M. - SA Carter relieved SA Davis at security post in the enclosed foyer.
- 8:00 A.M. - SA Hardy relieved SA Carter at security post in the enclosed foyer.
- 8:30 A.M. - Janet Knadle, USFHS nurse, reported for duty.
- 9:35 A.M. - Mrs. Marina Oswald, accompanied by SA Jamison and SA Dickerson, departed for third floor VFW Bldg. where she was met by Mr. John Thorne and Mr. James Martin and she posed for photographs for Time Magazine photographer and then on to the 4th floor to the President's Commission hearing.

- 11:55 A.M. - Mrs. Marina Oswald and party returned to hotel.
- 1:40 P.M. - Mrs. Marina Oswald and party departed for President's Commission hearing VFW Bldg.
- 4:00 P.M. - SA Davis relieved SA Hardy at security post in the enclosed foyer.
- 6:00 P.M. - Mrs. Marina Oswald and party returned to hotel. Mrs. Janet Knadle departed.
- 8:00 P.M. - Mrs. Marina Oswald, her daughter, June, Mr. John Thorne and Mr. James Martin, accompanied by SA Jamison and SA Dickerson, departed for Parshey's Restaurant, 20th and K Street, N.W. for dinner with Mr. Simmons Fenster, Time Magazine.
- 10:00 P.M. - Mrs. Marina Oswald and party, with the exception of Mr. Thorne, returned to hotel.
- 12:00 M.M. - No unusual activity or incident reported during this tour of duty on 2-6-64.

February 7, 1964 (Friday)

- 12:01 A.M. - SA Carter relieved SA Davis at security post in the enclosed foyer.
- 3:00 A.M. - SA Hardy relieved SA Carter at security post in the enclosed foyer.
- 8:30 A.M. - Mrs. Janet Knadle, USPHS, reported for duty.
- 9:30 A.M. - Mrs. Marina Oswald, accompanied by James Martin and SAs Jamison and Dickerson, departed for Vincent Beauty Salon, First Floor, Willard Hotel, F Street entrance.
- 10:15 A.M. - Mrs. Marina Oswald, accompanied by SAs Jamison and Dickerson, returned to hotel suite.
- 11:15 A.M. - Mrs. Marina Oswald, accompanied by Mr. James Martin and SAs Jamison and Dickerson, departed for Julius Garfinckle and Company Dept. Store, F and 14th Sts., N.W.
- 12:10 P.M. - Mrs. Marina Oswald and party returned to hotel suite.
- 12:20 P.M. - Mrs. Marina Oswald with Mr. James Martin and accompanied by Inspector Kelley and SA Jamison, departed for Broadcast House, 40th & Brandywine Sts. N.W., for taped TV interview.

February 7, 1964 (Continued)

- 1:30 P.M. - Mrs. Marina Oswald, Mr. John Thorne, Mr. James Martin, accompanied by Inspector Kelley and SA Jamison, returned to the hotel suite after a brief stop en route at St. Nichols Russian Orthodox Church, Edmunds and Mass. Ave., N.W., which was closed.
- 1:30 P.M. - Mrs. Knadle departed and the Protective Detail assigned to Mrs. Marina Oswald was discontinued at the Willard Hotel.

UNITED STATES SECRET SERVICE  
TREASURY DEPARTMENT

FIELD ORIGIN		OFFICE Dallas, Texas	FILE NO. 65-2-34,030
TYPE OF CASE Protective Research		STATUS Confirmed	TITLE OR CAPTION Assassination of President Kennedy
INVESTIGATION MADE AT Dallas, Texas		PERIOD COVERED 2-6-64	
INVESTIGATION MADE BY SA Charles E. Kunkel & SA Roger C. Warner		1034	
DETAILS <u>MEMORANDUM</u> Checks at Dallas Gun Club and Trinity Gun Club failed to reveal record of rifle practice by L. H. Oswald in the Love Field area.			
<u>DETAILS OF INVESTIGATION</u> Reference is made to phone call received from Inspector Holley, Washington, D. C. relative to testimony of Marina Oswald before the Warren Commission that Lee Harvey Oswald practiced with his rifle in an area near Love Field, Dallas. <u>Other Investigations</u> On 2-6-64 a study was made of Dallas city maps in an effort to determine an area in which it would be possible to fire a rifle in the Dallas Love Field area. It is noted that it is illegal to fire a weapon within the city limits of Dallas, Texas; further, that Dallas Love Field lies within the Dallas city limits. To the southwest of Love Field, approximately 3 miles from the Love Field property line lies an area largely unpopulated which consists of marsh land and forest, bordering the Elm Fork of the Trinity River and consisting of approximately 50 square miles. Located within this area are numerous places where a person could fire weapons. There are located in this area two gun clubs, the Dallas Gun Club and the Trinity River Rifle Club. On 2-6-64 at the Dallas Gun Club in company with SA Warner interviewed Mr. G. S. Tucker, manager of the Club. The records of the club were checked for the name of L. H. Oswald or Alex Bidell with negative results. Mr. Tucker advised that entrance to the Gun Club was by membership only and that the Club is under supervision 24 hours a day and that it would be impossible for a non-member to use the gun range; that the property adjoining the gun club affords numerous places for someone to fire a weapon and this is done on occasions without drawing any undue attention; that quite often people go into the wooded area in the

proximity of the gun club to hunt and target practice.

On the same day at the Trinity Gun Club (no address given) attempted to obtain information relative this gun range, however, no one was available and it appeared that this gun range was not open for public use.

On 2-10-64 Mr. John Dix, present member and past Secretary of the Trinity Gun Club was interviewed by telephone at his place of employment, WFAM-TV, Dallas. He advised that the Trinity Gun Club is a small caliber gun range; that guns over the 22 caliber group would not be allowed to be fired at this Club; that the entry into this range is by membership only. However, he stated that the range is not under supervision at all times; that each member is given a key to the gate entering the Club. Mr. Dix further advised that his membership records did not reveal the name of L. H. Oswald and he stated to his knowledge that Oswald had never been to the range to practice. He stated, too, that he had never received any complaints from any of the members of anyone using a high caliber rifle in practice at the club, nor has there been any brass found to indicate that higher caliber than 22 caliber rifles were being used at the Club.

On 2-10-64 contacted the Dallas Transit Company re bus service to the area described above. That company does have a bus that operates in the close proximity of this area during daylight hours, on weekdays, at intervals of 56 minutes, however, the bus service does not operate in that area on weekends.

DETAILS

SYNOPSIS

Physicians attending President Kennedy at Parkland Hospital interviewed relative to any reports or notes in their possession, other than the formal reports submitted by them to the Hospital Administration, copies of which are presently in the file.

DETAILS OF INVESTIGATION

On 2-7-64, at 1:55 pm call was received from Inspector Kelley requesting the doctors attending President Kennedy be interviewed to ascertain if the handwritten reports presently in the file were all of the notes or reports that were made by the doctors attending President Kennedy.

Other Investigation

On Feb. 10 and 11, 1964, the following physicians were interviewed relative to any further reports or notes they had written relative to the treatment of President Kennedy. All of the following physicians have stated they have no further notes or reports relative to their treatment of President Kennedy other than those presently in our possession: Dr. F. Bashour, Ass't. Professor of Medicine; Dr. Robert M. McClelland, Ass't. Professor of Surgery; Dr. Kemp Clark, Director Neurological Surgery; Dr. Charles Baxter, Ass't. Professor of Surgery; Dr. Malcolm Perry, Resident; Dr. Charles J. Carrico, Resident; Dr. M. F. Jenkins, Professor of Anesthesiology; Dr. Jackie H. Hunt, Resident; Dr. Gene Akin, Resident; Dr. Paul Peters, Associate Professor of Surgery; Dr. Don Curtis, Resident.

Dr. A. H. Giesecke, Jr., Associate Anesthesiologist, Department of Anesthesiology, when interviewed stated that he had submitted a report covering his actions of Nov. 22, 1963. He stated that this report was concerned mainly

with the treatment of Governor Connally, however, the first paragraph of this report is concerned with his minor actions relative to the treatment of President Kennedy. This report is attached.

Dr. Ronald Jones, Resident at Parkland Hospital, when interviewed stated that he did help treat President Kennedy and had submitted a report. This report has been obtained from Mr. C. J. Price, Administrator, Parkland Hospital, and is attached to this report.

It is noted that in Dr. A. H. Giesecke's report that he mentions being aided by Dr. Don Curtis, an Oral Surgery Resident. Mr. Curtis was interviewed and stated that he had submitted no report relative to his actions. Dr. Curtis' name had not appeared in our reports relative to the treatment of the President at Parkland Hospital.

#### DISPOSITION

This phase of the investigation relative to the assassination of the President at Dallas is closed in the Dallas Office.

Subject: Narrative summary - Anesthesia care for Governor John Connally

Upon notification by Dr. M. T. Jenkins that the President had been shot, I grabbed my equipment and proceeded to the Emergency Room via the elevator. Dr. Jenkins had taken the stairs. Dr. Jackie Hunt brought an anesthesia machine. Dr. Gene Alkin was also along. Drs. Hunt, Alkin and myself assisted Dr. Jenkins in establishing ventilation in the President, then Dr. Hunt proceeded across the hall to check on Governor Connally's requirements while I hooked an oscilloscope to the President with the assistance of Dr. Don Curtis, an Oral Surgery resident. Having been summoned by Dr. Hunt to attend to Governor Connally, I left the room just as Doctors Bashour, Seldin, and Clark arrived.

I rushed to operating room No. 5 in the Main Operating Suite on the second floor, where Governor Connally had been taken. On the way, Dr. Hunt briefed me that she had examined the Governor and found his color to be ashen, pulse of normal rate and volume, but he was dyspneic and tachypneic, grunting as he exhaled. She recalled having passed a cufflink to Mrs. Connally while the Governor was having a chest tube placed.

Upon arrival in operating room No. 5 Joe Mata, our orderly, brought me an anesthesia machine, which I hurriedly checked for safe operation. I then introduced myself to the Governor, determined that he had not eaten since early morning, had not had any serious medical illnesses and had not been in shock. At this time he had 150 ml. of blood above the tape in the chest bottle, his color was as described, his nail beds were cyanotic, his pulse was 90 and full, he was alert and unpremedicated. I checked his mouth for foreign bodies and started 10 liters per minute oxygen by mask from the anesthesia machine. At this time he was having a cutdown performed in his right ankle

and his trunk shaved from the clavicles down, including the right axilla. A Foley catheter was being placed in his bladder and 200 cc. urine was recorded.

Because of his past color, respiratory distress, and probable large blood loss, I decided to omit pentothal and to use cyclopropane and oxygen. Accordingly, I asked for quiet and for the Governor to be covered with a clean cotton blanket. At 1200, the patient was moved in the Emergency Room. I started slowly with 10 cc. of cyclopropane in 2 liters of oxygen per minute. His color had improved, his pulse still rapid at 60 with grunting respirations. The patient's level of consciousness was not anesthetic at 1307 and was about 50 mg. of cyclopropane at the way of the intubation to prevent hard intubation. The patient was placed in the prone position, a traumatic and easy and no discomfort. The patient's head and trunk was sprayed with 5% cocaine and 10% lidocaine. The endotracheal tube was a Knight-Crimm-Sanders and which was found to provide a good fit.

During the induction the patient's blood pressure dropped to the EEG machine. The EEG reported a very transient bradycardia during the intubation. The patient's head was turned to the left and the EEG looked normal. A blood pressure cuff was inflated and applied to the left arm and blood pressure was noted at 120/70. The patient's head was moved in the ways taken of the tube, which was 10 cm. long and 20 cm. Blood was drawn for type and crossmatch, and a hemoglobin was reported at 15.2 gm%, which was normal. Respirations were controlled, the position of the endotracheal tube was checked by auscultation of the chest and reference to the X-rays. The Governor was placed in a semi-prone position with the wounded side up. The right arm was supported in a sling over his chest from the operating table. The skin incision was made at 1335, 55 minutes after arrival in the Emergency Room.

Dr. H. S. White, Dr. H. S. White, and Dr. H. S. White operated for 1 hour 45 minutes. The position was changed to supine, and Dr. H. S. White and Osborne operated on the arm and Dr. H. S. White, Dr. H. S. White, and Dr. H. S. White operated on the left thigh simultaneously.

The cyclopropane was turned off at 1445 and 50 mg. morphine was given intravenously. The Governor regained consciousness during the application of the cast to the right arm and forearm. The endotracheal tube was irrigated with 50 ml. normal saline in 10 ml. increments, followed by suctioning, which yielded moderate amounts of bloody mucus. The oropharynx was cleaned. The estimated blood loss at surgery was 1,500 cc. in the chest bottle, suction bottle, and washed sponges. Urine output was 450 cc. He received 3 liters of Ringer's lactate, 2 liters of which contained 5% dextrose; 2,000 ml. whole blood; and 120 ml. 5% dextrose in water. Color was pink, pulse 110, blood pressure 120/70, extremities were warm and dry. He was awake, could open his eyes and nod his head on command, and was extubated. Total anesthetic time was 3 hours 50 minutes; operating time 3 hours 15 minutes.

Page 3 - Narrative summary-anesthesia care

For Governor John Connally

Upon extubation, Governor Connally spoke immediately, saying he felt well but was somewhat restless, and began grunting and grunting. The immediate postoperative course was satisfactory, without hypotension, and with only a hint of cyanosis, which resolved over the following 3-4 hours, during which period he complained of soreness of his right shoulder and a sensation of needing to urinate, caused by the urethral catheter.

During surgery he received 1 million units of penicillin after determining he was not sensitive by discussion with his wife and a call to Dr. Swift in Austin, Texas. In addition he received 500 mg. tetracycline. He had received 0.5 cc. tetanus toxoid in the Emergency Room prior to transfer to the Main Operating Suite.

Sincerely,

A. H. Giesecke, Jr., M.D.
